

Systemwide Highlights

Office of Philanthropy & Partnership
Fall 2016

**GREENVILLE
HEALTH SYSTEM**

GHS SmartExam and MyChart have enhanced the way we stay connected with our patients. Although philanthropic gifts were not used for these two services, we encourage you to make use of them for your own benefit.

When you designate philanthropic gifts for the “greatest need,” you help us remain a regional leader in healthcare innovation, technology and services. Greatest need funding is essential to keep our donors connected and our community healthy, thriving and well-informed. With every gift given, we say *thank you!*

GHS SmartExam

At Greenville Health System (GHS), we have a total health commitment to provide you the right care, at the right time, in the right place—especially primary care. A few years ago, the “right place” meant MD360® urgent care or a doctor’s office. Now, that definition has expanded to include a mobile health clinic, middle school and on-site clinics in workplaces throughout the region.

On April 4, GHS SmartExam debuted, the latest *smart* way that adult and pediatric patients can connect with a GHS care provider online. It is fast, secure and convenient.

For only \$20, you can login to your SmartExam account, type in your symptoms, and then receive a diagnosis and treatment plan within an hour by phone or email. If needed, prescriptions can be sent electronically to your pharmacy.

Common conditions treated through SmartExam include bladder infections, colds, allergies or chest infections, sore throat and ear pain. If a diagnosis cannot be made using SmartExam, you are not charged.

SmartExam is available 24 hours a day, with responses provided 8 a.m.-8 p.m.

To learn more or register, please visit www.ghs.org/smartexam.

Sign Up for MyChart

Looking for a quicker, more convenient update on your visits with a healthcare specialist? Use MyChart, an online portal that connects you to your GHS providers and offers access to important information and updates regarding your doctor visits. Best of all, this information is right at your fingertips.

With a MyChart account, you can schedule appointments, receive reminders, ask billing questions, request prescription refills, send messages to your medical provider, get medical advice, review results from your doctor visits and lab tests, see your health summary, and more.

To register for MyChart, learn more or download the MyChart app to your mobile device, visit www.mychart.ghs.org.
